

## Trade Union Facility Time for 2020/21

The [‘Local Government Transparency Code 2015’](#) requires local authorities to publish information on the names of the recognised trade unions, the number of staff who are union representatives, and an estimate of the authorities’ spending on unions as a percentage of the total pay bill. This document is to be updated annually.

\* Due to one member of staff being identified as devoting at least 50% of their working time to trade union activity, we are therefore unable to publish their salary details due to data protection. For this reason, we use the figure quoted for the median basic pay of the Fire Authority’s whole workforce FTE (excluding on call staff) as being £31,044. This figure is taken from the Avon Fire Authority Pay Policy Statement 2020/21. Please note the above is an estimation of trade union costs and not an actual.
